SUMMARY

As a Full Stack Developer, I am a passionate and motivated professional with expertise in building dynamic, responsive, and scalable web applications. I possess a strong command of both frontend and backend technologies, including HTML, CSS, JavaScript, React.js and MySQL. My projects, such as an interactive Tic Tac Toe game, an efficient Online Library Management System and Weatherwatch, demonstrate my ability to create intuitive, user-friendly interfaces and integrate robust backend solutions. I bring creativity, attention to detail, and a commitment to continuous learning, striving to deliver high-quality web solutions that enhance user experience and align with business objectives

TECHNICAL SKILLS

Programming Languages: Mysql, Javascript

Frameworks: Reactjs, Bootstrap

Libraries & Tools: Figma, Version control system, code editors, styling

PROJECTS

Online library management system   Mar 2023
RDBMS Project   *Mysql*
 • A Library management system is a online RDBMS project used by libraries to manage their resources efficiently

 • Cataloguing: Allows librarians to create and manage records for library materials.

 • Circulation: Facilitates the process of checking books in and out and handling renewals.

Space-Themed Tic Tac Toe   Aug 2024
Reactjs Project   *Reactjs, Hooks, Props, State-management*
 • Developed a React-based space-themed Tic Tac Toe game with dynamic turns, winner announcements, and engaging UI.

 • React.js: Used to build the interactive UI and manage the game logic with React hooks (useState and useEffect).

 • CSS: Designed a space-themed interface with astronaut characters and speech bubbles for better user engagement

WeatherWatch: Real-Time City Weather Tracker   Oct 2024
Reactjs Project   *Reactjs, Real-Time Weather Data, Dynamic UI*
 • Real-Time Weather Data: The project fetches and displays real-time weather information (temperature, humidity, and wind speed) for a user-specified city using the OpenWeatherMap API.

 • Dynamic UI Updates: It dynamically updates the weather details and displays an appropriate weather icon based on the conditions (e.g., clear, rain, snow) of the city entered.

 • Error Handling: The app shows an error message if the city is not found or the user enters an invalid city name, ensuring a smooth user experience.

EDUCATION

University college of engineering   Thiruchirapalli, Tamil nadu.
B.Tech Information Technology CGPA - 7.74   *Aug 2020 – May 2024*

De britto Hr.Sec.School   Devakottai, Tamil nadu.
HSC Percentage - 76.5   *Jun 2018 – Apr 2020*

CERTIFICATIONS

 • Mysql for beginner - A complete training for beginners - Isssued by IBM

 • Reactjs for beginner - Issued by Great learning

 • Fullstack Java - Besant Technologies(Present)
